COVID-19 VACCINE - An Update from The WA Primary Health Alliance Wheatbelt team.

Phase 1b of the National COVID-19 vaccine roll out is due to commence from the week of 22 March 2021 in selected locations. Some people are keen to know when, where and how to book an appointment with an approved vaccination provider within their local area.

Members of the community can check their eligibility, or that of a loved one, online via the Eligibility Checker available at www.covidvaccine.healthdirect.gov.au/eligibility. If eligible, they will be able to view vaccination clinics and book an appointment online or via phone.

There is currently a low risk of contracting COVID-19 in Western Australia and indeed in Australia, so it's important to take the time to check eligibility in this round before making an appointment or calling a doctor.

The Australian Government Department of Health Website — www.health.gov.au has a lot of information that may be useful or if you would prefer to talk with someone the National Coronavirus and COVID -19 Vaccination Helpline is available on 1800 020 080.

Things that can be done while people wait for their vaccination appointment are making sure Medicare details are correct, continuing to practise good hygiene, physical distancing and adhering to local restrictions.

All eligible Australians will have the opportunity to have the vaccination in the coming months, please be patient.
